Response to Amendment

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ken Koestner on 4-22-2004.

The application has been amended as follows:

Claims 3, and 37-39 are cancelled.

In Claim 1 line 12 after "tissue." Insert therein,

--- a wavelength modulator coupled to the oscillator and controlling radio frequency modulation of the optical source to emit the plurality of selected wavelengths that are selected to generate the measurable changes in absorbance of analytes of interest within said tissue.---

Allowable Subject Matter

Claims 1, 2, and 4-36 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither teaches or suggests an optical sensor as claimed in comprised of the combination of an optical source positioned on, and emitting a plurality of selected infrared wavelengths in to tissue and a photodetector positioned on the same tissue to detect said plurality of radio frequency modulated infrared wavelengths. An oscillator coupled with a wavelength modulator provides the radio frequency modulation of the optical source to generate the selected infrared wavelengths that provide the measurable changes associated with absorbance of analytes of interest. The prior art shows many of these features but does not qualify as prior art "by another" since Walker (U.S.Pat.6,453,183) is an inventor of the instant application and the applicable subject matter was derived by Walker. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel I. Robinson whose telephone number is 703 306-9043. The examiner can normally be reached on M-F 5:30am-2:30pm.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
